Professional Summary

Detail-oriented Full-Stack Developer with expertise in Django, React, Redux Toolkit, and deployment technologies including Nginx and Gunicorn. Proven ability to deliver responsive, user-friendly web applications optimized for performance and scalability. Passionate about continuous learning and delivering high-quality software solutions.

Education

- Bachelor's Degree in Construction Engineering – Zagazig Higher Institute of Engineering and Technology | 2018.
- Graduation Project: Foundations (Grade: A+).

Work Experience

Full-Stack Developer | Freelance / Personal Projects | January 2024 – Present

- **Tech Stack:** React, Django, PostgreSQL, REST APIs, JWT, Nginx, Redux Toolkit
- **JumooH Media – Full-Stack Portfolio Platform**
 - Developed a bilingual portfolio in Django/React, enhancing performance and user experience with lazy loading, serving 500+ visitors monthly.
 - Designed responsive, accessible UI with light/dark themes, ensuring cross-browser compatibility.
 - Integrated backend APIs with efficient database management for scalable application performance.
 - Implemented secure JWT authentication for user data protection and session management.
 - Deployed on Hostinger VPS using Nginx, and Gunicorn with HTTPS and CI/CD workflows.
 - GitHub: <https://github.com/AymanCE-SE/pervasion>
 - Demo: <https://jumooHmedia.com/>
- **Crowdfunding Web Application**
 - Engineered full-stack crowdfunding system leveraging Django templates with scalable architecture.
 - Added email verification, social login, password reset, and payment workflows.
 - Configured SMTP notifications for automated user emails and improved user engagement.
 - GitHub: <https://github.com/AymanCE-SE/Django-CrowdFunding>
 - Demo: <https://www.youtube.com/watch?v=eaqb832pXCo>
- **E-commerce Platform (FAMMAS)**
 - Built product catalog and admin dashboard with React and Redux Toolkit.
 - Ensured responsive design for seamless user experience across devices.
 - Managed inventory and order processing functionalities.
 - GitHub: <https://github.com/AymanCE-SE/React-bootstrap-with-redux>
 - Demo: <https://react-bootstrap-with-redux.vercel.app/>
- **FoodTrove UI/UX Design**
 - Converted Figma prototypes into fully responsive landing pages using Bootstrap.
 - Created modern, accessible layouts enhancing usability.
 - GitHub: <https://github.com/AymanCE-SE/FoodTrove>
 - Demo: https://www.youtube.com/watch?si=7FiG7L_bAem100DC&v=X8ztf_DEZrs&feature=youtu.be
- **Database Management System – Bash Linux**
 - Enhanced command-line DBMS with automation and optimization for faster query execution.
 - Implemented robust data validation and error handling for reliability.
 - Automated database operations through Bash scripting for efficiency.
 - GitHub: <https://github.com/AymanCE-SE/Bash-script-DBMS>

Civil Engineer & Site Manager | Various Firms | 2019 – 2024

- Supervised up to 68 units with cross-functional teams, ensuring safety compliance and timely delivery.
- Resolved on-site challenges, maintaining workflow continuity and safe operations.

Internships & Training

Information Technology Institute (ITI)

November 2024 – May 2025

- Completed full-stack development training with backend integration, database design, API development.

African Leadership Xcelerator (ALX)

July 2024 – September 2024

- Professional development scholarship, leadership, teamwork, and problem-solving skills.

Technical Skills

- Backend: Python (Django, Flask), TypeScript (Node.js, Express)
- Frontend: HTML, CSS, JavaScript, React, Redux Toolkit
- APIs: REST, JWT authentication
- Databases: PostgreSQL, MySQL, Django ORM
- Deployment: Docker, Nginx, Gunicorn, GitHub Actions (CI/CD)
- Version Control: Git, GitHub workflows
- Linux: Bash scripting, automation

Personal Skills

- Strong problem-solving and decision-making
- Detail-oriented with focus on quality
- Effective communication and teamwork
- Leadership in managing project teams
- Ability to work under pressure

Languages

- Arabic: Native
- English: B2
