Professional Summary

5 years managing large-scale construction projects sharpened systems thinking and delivery discipline - now applied to software. Delivered 10+ projects spanning full-stack web apps, database systems, frontend interfaces, and generative AI - with one production deployment on VPS using Nginx, Gunicorn, and CI/CD pipelines. Graduated from the ITI Full-Stack Program (600+ hrs), targeting a backend-leaning full-stack role focused on system design, API architecture, and scalable performance.

Education

- **Bachelor's Degree in Construction Engineering, Zagazig Higher Institute of Engineering and Technology**
 - GPA: 2.50 (Good) | September 2013 - September 2018
- Graduation Project: Foundations - Grade: A+

Work Experience

Full-Stack Developer | Freelance / Independent Projects | January 2024 - Present

- **JumooH Media – Production Ready Full-Stack Media Portfolio Platform**
 - Architected and launched a bilingual Django & React platform for a real client, serving 500+ monthly visitors with optimized lazy loading and scalable performance enhancements.
 - Designed responsive and accessible UI with light/dark themes and cross-browser compatibility while integrating secure RESTful APIs and JWT authentication.
 - Deployed on Hostinger VPS using Nginx and Gunicorn with HTTPS and CI/CD workflows.
 - GitHub: <https://github.com/AymanCE-SE/pervasion>
 - Demo: <https://pervasion.vercel.app/>
- **Crowdfunding Web Application**
 - Engineered full-stack crowdfunding system leveraging Django templates with scalable architecture.
 - Added email verification, OAuth, password reset, and payment workflows.
 - Configured SMTP notifications for automated user emails and improved user engagement.
 - GitHub: <https://github.com/AymanCE-SE/Django-CrowdFunding>
- **E-commerce Platform (FAMMAS)**
 - Built product catalog and admin dashboard with React and Redux Toolkit.
 - Ensured responsive design for seamless user experience across devices.
 - Oversaw inventory tracking and order processing workflows.
 - GitHub: <https://github.com/AymanCE-SE/React-bootstrap-with-redux>
 - Demo: <https://react-bootstrap-with-redux.vercel.app>
- **FoodTrove UI/UX**
 - Converted Figma prototypes into fully responsive landing pages using Bootstrap.
 - Created responsive and accessible layouts with improved mobile usability.
 - GitHub: <https://github.com/AymanCE-SE/FoodTrove>
- **Database Management System - Bash Linux**
 - Constructed a command-line DBMS with automation and streamlined database operations.
 - Applied robust data validation and error handling for reliability.
 - GitHub: <https://github.com/AymanCE-SE/Bash-script-DBMS>

Civil Engineer & Site Manager | Various Firms | 2019 - 2024

- Resolved 10+ on-site engineering challenges across 68-unit projects, maintaining zero workflow disruptions and full safety compliance.

Internships & Training

Information Technology Institute (ITI)

November 2024 - May 2025

- Completed 600+ hours of intensive full-stack training: Django, React, PostgreSQL, Docker, Nginx, REST APIs, and deployment pipelines.
- Delivered 7+ end-to-end projects covering backend integration, database design, API architecture, and Linux system administration.
- Additional modules included AI fundamentals and operating system internals, expanding into system-level and intelligent application development.

African Leadership Xcelerator (ALX)

July 2024 - September 2024

- Awarded a professional development scholarship focused on leadership, teamwork, and structured problem-solving.

Technical Skill

- Backend: Python (Django, Django REST Framework, Flask), TypeScript (Node.js, Express)
- Frontend: HTML, CSS, JavaScript, React, Redux Toolkit
- APIs: REST, JWT Authentication
- Databases: PostgreSQL, MySQL, Django ORM
- Deployment: Docker, Nginx, Gunicorn, GitHub Actions (CI/CD)
- Version Control: Git, GitHub workflows
- Linux: Bash scripting

Personal Skills

- Strong problem-solving and decision-making
- Team Collaboration & Cross-functional Communication
- Leadership in managing project teams

Languages

- Arabic: Native
- English: B2
